Negotiating Safer Sex	1992	10 min	16-20 yr. olds, urban college students or college bound students.	Negotiating Safer Sex is the second tape-book module of a two tape-book series. It is designed specifically to reduce sexual risk taking. This module is the skills-oriented intervention that models and allows practice using the negotiating model. The modeling and practicing of risk reducing skills is a critical component of self-efficacy.	AIDS Impact, Inc. P.O. Box 9443 Seattle, WA 98109 206 284-3865 FAX: 206 284-3879
Whenever You Sleep With Someone	1992	10 min	16-20 yr. olds	Whenever You Sleep With Someone is the first of the set, designed specifically to raise the adolescent's sense of vulnerability. The literature shows that many adolescents feel invulnerable: bad things happen to other people, not to themselves. This intervention is designed to open their eyes, but not simply arouse fear. The proposed trigger discussion, which is designed to follow the video presentation is an integral part of the intervention and should be lead by a thoughtful, skilled and prepared professional. Blood Lines (available on DVD only)	Copyright 1998 Revised 2005	22 min	Jr. High - College	Jennifer Jako and Rebecca Guberman were infected with HIV as teenagers. Traveling to Europe and across the U.S., they interview and film themselves and other young HIV+ men and women of different races and from a variety of socioeconomic backgrounds. Blood Lines presents a montage of interviews. This film is about fear and confusion, hope and anger, joy and the remarkable resilience that HIV+ young people share. Statistical data and information about the epidemic is superimposed over almost mystical microscopic images of blood. The soundtrack is composed of contemporary music. What this film does is personalize risk the most effective tool for preventing HIV infection. There are 4 instances in the film when adult language is used, which reflects the speaker's reality at a moment when polite words seemed inadequate. Stopping the Spread of HIV and AIDS	1996	15:40 min	Gen. Audience	Designed to reach young, sexually-active people, reviews three ways people can get AIDS: through sex, blood, or from mother to fetus or newborn, and suggests ways to minimize exposure to HIV. Tells viewers how to practice "safer" sex and presents abstinence as the "safest" way to avoid getting HIV. Also covers the difference between HIV and AIDS, drug use, testing for HIV, and how to keep from giving AIDS to someone else if you have it.	Milner-Fenwick ATTN: Chery W. 2125 Greenspring Drive Timonium, MD 21093 800 432-8433 X 254 FAX: 410 252-6316 www.milner-fenwick.com
No Rewind	1993	23 min.	14-20 years	In a lively and accessible format, <i>No Rewind</i> is designed to heighten teenage awareness about HIV and AIDS. The video focuses on education and communication as essential to bringing about the behavioral changes that can prevent the spread of HIV and AIDS. This multicultural documentary includes two stories by HIV positive youth and several peer educators who discuss and demonstrate their work in and out of the classroom. A blend of storytelling, humorous role playing and condom how-to encourages students to break through the denial myth of "it couldn't happen to me" and to begin communicating about relevant sexual and social issues. What Is AIDS?	1988	16 min.	Elementary School Grades: 4 – 6	Explores many of the AIDS issues and questions important to elementary school students. It describes the AIDS virus as a "tricky son-of-a-gun", that doesn't "play fair," that fools the body's immune system into thinking the AIDS virus is not an enemy. Through live-action dramatizations, many of which include the use of baseball-related analogies or cartoon-like viruses, this video is designed to prepare young people to better understand the facts about AIDS and what they can do to help prevent the spread of the disease.
